

# Care & Maintenance

---

The ever-lasting finish requires only simple and routine care to maintain its good looks. To clean Concetto, we recommend using warm water and a cleaning detergent.

## Stubborn Stains or Dried Spills

---

Any multi-purpose cleaner or detergent can be used on stubborn stains. For extra-stubborn spills, use a scouring pad to shift the dirt.

To remove adhered materials like food, gum and nail polish, first scrape away the excess with a putty knife.

Bleach or acetone can also be used to remove stubborn marks, however the surface should be rinsed with water immediately after their use.

## Heat Resistance

---

Concetto can tolerate moderately hot temperatures for brief periods of time.

Direct contact between very hot pots and the Concetto surface should be avoided. We recommend using an insulator / hot pad / trivet especially when using cooking units like electric fry pans, woks and kettles.

## Tough - Yes, Indestructible - No

---

Avoid any highly caustic cleaning agents like oven and grill cleaners and dishwashing agents that have high alkaline/pH levels. Products containing oils or powders may leave a residue and should be rinsed off thoroughly.

Should your surface accidentally be exposed to any of these damaging products, rinse immediately with water to neutralize the effect.

## Scratch Resistance

---

Concetto is highly scratch resistant. However, avoid using sharp objects directly onto the surface.
