

BLUE CRYSTAL ONYX

Material

Marble

Color

Blue, White

Stock Finishes

Polished

Stock Sizes

Slabs - 2cm

Durability/Uses

Interior Flooring, Interior Walls, Kitchen Counters, Other Counters

Flooring Application

They can be applied in all indoor settings (floor, covering and as decorative items); including wet areas (table tops for kitchens and bathrooms); we do not recommend the application of Crystalline Infused Marbles and Granites in outdoor areas.

Maintenance

This product requires the same care and maintenance as the conventional granite and marble and therefore we recommend:

Using DryTreat penetrating sealers to seal your stone, and Hannafin cleaners to keep it beautifully maintained. Some stones may benefit from the application of Enhance Plus. [Click here to read more about DryTreat Sealers & Cleaners.](#)
